

This overview, compiled by UN-Habitat, is the first overview of the Recovery and Reconstruction projects reported to the RRR Platform, which is developed to track the ongoing and finished recovery and reconstruction projects in Iraq. This overview shows all such projects reported to UN-Habitat and the Ministry of Planning by UN Agencies, categorized per sector and governorate.

As shown below, most of the projects have been in the education sector, while the least amount of projects were implemented in the transportation sector.
